Aerialist dies during performance

During this scene at the 9:30 pm show on June 29, 2013, Guyard-Guillot was hoisted on the stage side at a height of at least 94 feet (29 m) (some witnesses said that it could have been mÅ S of 100 feet (30 m)). [4] According to a face-to-face witness, she "she then picked up". [2] She apparently arnelicated from her safety cable, causing her from falling into a well, out of sight of the audience. [4] A spokeswoman confirmed that the arnÅ © s held in Guyard-Guillot during her fall. [5] "Initially, many people in the public thought that she was part of the choreographed fight," said a face-to-face witness. Consulted on July 3, 2013. ^ "Cirque-Osha reaches an agreement in the Guillot-Guyard case." People.com. à † "ABCD David S.
