ASCII Media Works reported that as of October 2008, over 2.2 million copies of the first nine novels had been sold in Japan[1]. Mainichi Shimbun called the series a "unique fantasy" because of the plot's focus on economics, commerce, and retail rather than on typical elements of fantasy such as swords and magic.[2] Yen Press has licensed the light novels and is publishing them in English in North America.[3] ASCII Media Works has published three volumes of a spin-off light novel series titled Wolf and Perchment since September 2016. A manga adaptation illustrated by Keito Koume began its serialization in the November 2007 issue of ASCII Media Works¦ ¦ ¦ seinen mangagazineÃ" Dengeki Maoh. The manga was licensed by Yen Press, which began publishing the books in English. A 12-episode adaptation aired between January and March 2008, plus a single original animation (OVA) episode released May 2008.[4][5] A second episode of OVA was released in April 2009 as a prequel to the second season of anime. II, which aired 12 episodes between July and September 2009. Both anime seasons were released in English by Kadokawa Pictures USA and Funimation. Two visual novels based on the series for the Nintendo DS were published by ASCII Media Works in June 2008 and September 2009. The story of Spice and Wolf revolves around Kraft Lawrence, a 25-year-old itinerant merchant who carves various goods from city to city to live in a stylized and fictitious world, with a historical context with European influences. [6] His main goal in life is to raise enough money to start his own shop, and he has been traveling for seven years while gaining experience in the business. One night, when he stopped in the city of Pasloe, he found in his chariot a wolf-deity named Holo who is more than 600 years old. She takes the shape of a 15-year-old girl, except for a wolf's tail and ears. She presents herself as the grape harvest goddess of the city, who has kept her blessed with good wheat harvests for many years. Holo has experienced a growing isolation and disillusionment to the citizens' movement from its protection towards its own methods of increasing collection. She is particularly hurt at their forgetfulness of the promise made between her and a farmer when she arrived in the village and their criticism of her as a "fickle god" for needing to replenish the land with smaller crops. Because of these changes, she wants to return to her homeland in the north called Yoitsu; she believes that people have already abandoned her and that she has kept her promise to keep the good harvests. Holo also wants to travel to see how the world has changed while staying in one place for years. He manages to negotiate his way out of the village by making a deal with Lawrence to take her with him. As they travel, her wisdom helps to increase her profits, but at the same time, her true nature attracts unwanted attention from the Church. All rules on this website are instantaneous
