Finally, after 40 years, we asked for new molds. The quality of molds is better than those 40 years ago! We have our manufacturing molds of Bethlehem for more than 25 years. After some small remodeling and cleaning, we were able to sell our molds for more than we paid for them originally. They were in great working condition and will last another person for many more years to come. Septic Tank truck beds are the best invention than a backhoe, which was invented... Our truckbed has surpassed 2 truck chassis and is now mounted on the 3rd truck chassis and still goes strong! Strong!
