Tire treads help your car keep traction on wet or snow-covered roads. When the treads are worn, you are more like losing control of the car, experience a burst or turn into the snow. Stay safe on the road leaving honest ABE controls the tread on your car's tires. Just insert a penny, with the head of Abraham Lincoln, upside down, in the tread on each tire. If you still can see the whole head of him, it's time for a new tire. ostockphoto.com Your brand new shower tent is fantastic, but continues to blow up and cling to you while bathing ... a common and annoying problem, especially with light shower curtains and coatings. To keep the tent in place, paste small batteries of four or five large paper clips, then slide the weighted clips on the bottom of the shower curtain, spacing them evenly. Now you can take a shower without having to fight the tent. IStockphoto.com need to tighten a loose screw, but I don't want to disturb the screwdriver hunt? No problem! Just pull a back coin out of your pocket. Penny and Dimes are often quite thin to serve as improvised screwdrivers. They are also at hand to indicate pop-tops on drinks or cans of pets. IStockPhoto.com Penny Tile has returned to a large style for floors, backsplashes and bathtubs or shower rooms. While the term $\hat{A} \hat{e} \hat{a}, \rightarrow \hat{A}$ "penny tiles" normally refers to the ceramic tiles the size of a penny, some do-it-give creative took the term literally and used the real pennies for shaping copper-colored floors, false ceilings, backsplashes and table tables. You need a lot of cents - from 250 to 275 per square foot, in fact ... and a lot of patience to paste coins into place. Once finished, cover the coins with clear epoxy to create A smooth surface and keep everything in place. Then prepared for compliments, because you will have a lot of them. iStockPhoto.com If you need a close but not precise measure - for example, if you want to know if the desk that heals at the store Oshate adapts to the corner of your living room ... but you don't have a housekeeper nearby, dig a quarter out of your wallet. At its broadest point, the coin is almost exactly one inch. iStockPhoto.co M While there is no hard science to prove it, many gardens swear copper to repel the devastation snails. Protect your surrounding delicate seedlings with a 1982 or earlier penny ring; The coins produced during that era were 95% of copper, while today's criminals are made for the more zinc. It is said that the hungry snails will get an unpleasant feeling, similar to an electric shock, when they try to cross the coins, and then he will tell us elsewhere for their meal. »Related: \hat{a} , 8 ways to fight the garden parasites IStockPhoto.it La Even the most delicious dinner can be adhered. For a quick and temporary solution, slide a small stack of coins under the offensive table. For a permanent correction, the coins are supergined in position. IStockPhoto.com and everyone experienced the frustration of a jar that has just won, leaving the content so tantilized out of reach and your hand and the sore wrist. To rescue: a subtle template. Just slip the coin under the edge of the lid and e Twist the temple to break the jar's emptiness seal. It may be necessary to repeat more than one point around the lid, but once you have heard the release of the air from the jar, you should be able to give the lid a good turning point and remove it. IStockPhoto.com Your treasure has just brought you a beautiful bouquet, and you will like to last as long as possible. To help extend the life of the cut flowers, drop a hundredth of 1982 or previously in the vase together with water. Those old pennies were made for the more copper, which is a slight fungicide. The metal will help reduce the growth of mold and mushrooms in the water, so your flowers can be able to appear the best a few days long than they would not be without the penny. IStockPhoto.com If you are a beginner for the care of the lawn or a master gardener, everyone can use a small help around the courtyard. Sign up for the Dirt newsletter for suggestions, recommendations and troubleshooting tools that can help you tame your big outdoor. Now let's start making your lanyard and manage. To do this, first you will take a diamond knot with the two pieces of cable coming out of the punch of the monkey. To start the diamond node, align the two strings next to each other. Give the black wire and make a ring on itself. Bring the gray thread under the black loop, above the top of the black wire then back under the black wire. Now thread the gray thread over the bottom of the black cycle, below itself, then go back to the upper part of the black loop. Pull the gray wire slightly to tighten the loops. (Only slightly) pull the gray thread around and under pulling up through the center of the black loop. Make sure you end up on Tom of the other gray wire that is there. When you pull it a little more tight, this is what your node should be similar. Now let's go back to your black thread. Take the end of it. Loop The Black Strand on the left side of the knot, over the gray thread and below all the other pieces, pull it through the center of the node just like you did with the gray thread. This is what should appear. Now, carefully start tightening the knot. Pull the wires to get the diamond node closer to the base of the monkey fist. This is the way the diamond node should look. Look.
