The danger is hiding in the inions of playing game events of games of tombfree games. What the mysteries are hidden in the ancient ruins - more decorations in some areas and buildings - new lobby. Only the essential features now! - Rework-Balance card settings Changes and other improvements So this game is fantastic, but there are some mines problems and a big problem. The miners are like updating prices and how difficult it is to get something other than coins in the lucky chest or in gems it was my first time he gets something besides that and what worth the value of 20 gems rather than one Gun is much more rare. I had another account and I had the claw of power from the lucky chest and from the golden friend also from the lucky chest and it seems that you have just made them more rare or I'm just unlucky and all the others who have written a relationship. So for now call it the unlucky chest or make it a little luckier because the coins I get usually are 3 I can get 3 coins in a game. And now the big problem is the fact that people can shoot you when your mile away, but on their screen, floating, so everything they need to do they shoot them on their screen and your being damaged until they will kill you And so I don't waste your trophies as I probably won if it didn't happen. Another threat's problem is adding so many new things like the fun of Battle Royale, but we're not trying to compete with the Pubg or the Fortnite as just a type of game but your game but otherwise great game and if you read this whole What I just want to say I rated five stars because it's fantastic has only a lot of À ç à,~ À "bugsÀ ç à,~ If you know what you mean campaign players. Hi, thanks for your feedback and five stars! À á - As for the big problem you mentioned, it is probably related to connection problems. We are constantly striving to improve the connection and performance of the game server, so the situation should be much better now and improve more in the future since we still have a lot of efforts in that direction.Àç "à" regarding The minor problems, most of them should be solved by now: we changed the chest lucky mechanic, added many additional options to earn gems and coins and overall the game has changed a lot in a better way! So try a check it again! ÀçÀa © i enjoy this game is fantastic and added a lot of new things. Some of the things they added as the new world are fresh and all but other things like trophies It's not. First of all the trophies you lose as 30 or 33 trophies when you lose a game, but when you win the game, get only 20. Second of all players, get players matched with higher levels! These players Ori have things you don't even know why you don't unlock them! Players have a god armor and guns of God and fundamentally takes you to an automatic loss because it makes anger of other players and when you want to see how many players are in your team you find out that they all went. Then there is the main problem that I don't know if I were the only one with this problem, but this thing is this thing of the new world. This new world is the world 4 in the world there is something that tells you that you need 6 stars to unlock guess what? I can't play in the new world! Before the world 4 I completed all the other worlds and I have more than 6 stars in all worlds and I still can't play the game I searched all on the internet to see what to do, but I can't find just just videos of youtubers playing Through the world. Really sad that I can't play the world because I couldn't wait to play it. I hope you solve the problem or plz tell me if I were just a dum and that there is something I need to do but until it is simply sad :( hello! We are pleased to see your feedback À á à ¢ Àa © The good news is that the problems you mentioned are already rectified! In our new new System, you will not lose trophies from defeat. The quantity of trophies you get depends on your performance in battle, so even if your team loses, you still get trophies based on your rank. À " Àç ~ À¼MatchMaking could be difficult from the moment you meet enemies based more on the evaluation of skills, regardless of the march. We are currently in the middle of reworking matchmaking algorithms. ÀçÀa "As for the world 4, it is necessary to get 3 stars in all previous campaign levels to unlock it. It is not an easy task, but we believe you can do it! À " À okay, I've been here since 2013 or lasts there, and I went ahead and out of this game for a few years just to go back to seeing that games have been entered with Pop-level guns? They have the new update guns and those you need Creating from the breasts, and I am here with the standard store guns, which is not also compared with how much damage does it to those who have just been released. I feel useless with my in-game teammates when I keep dying to A player with a player opp, and finish with like two or four kills on average in every team team. Vane played. I find him ridiculous and unfair to have those types of guns that are close to a killer shot, and I have to pass Through all my guns to kill a player. My patience flows thin when I put in a game with players with those types of guns that should fight someone at their level with the same type of guns. He makes more sense, because if you're fighting lower players, then they don't make you a better player, makes it easier for you to enjoy the game when it should be a challenge. Other players with those new op pistols are like bosses to defeat other in-game. I just want the possibility of not being killed every time I generated from a Gunner op. Please take this into consideration of players who love this game still want to fight the same level opponents. Don't put a puppy in front of a bull to fight, this is the way I feel in this situation. Hi, thanks for your review! It's sad that your return to the game was not impeccable. Currently we are in the middle of reworking matchmaking algorithms and some changes may also appear in the next imminent update! Àç ~ À¼ also, we prepare the FAQs and guidelines to explain all new features. If you see that your guns are not as effective as your opponent, please check if they are adequately updated, don't forget to update your armor and check if you have any available travel. You can earn gold in PVE activities, buy guns at maximum level from the van or take them from the breasts using the keys earned in battles. ÀçÀ\$ You can also play Battle Royale or other mode in which each of the players starts without equipment. We hope it will give the game another possibility after the next June update!
