Other limits can exclude parts of or even whole regional districts, or expand the definition to include the Fraser Valley regional districts of the British column contain many cities, cities, airports and regional, provincial and national parks associated connected by the highway and the province railway network. The region is for the complexity of their embossed forms, the result of millions of years of tectimine board movements. The ecology of the region is for the complexity of their embossed forms, the result of millions of years of tectimine board movements. numerous mountain chains. Definitions of the region, which includes the interior of the mountains and the valleys between them, understands everything to the interior of the mountains of the coast and reaching east to the rocky mountains and in the northeast, in the British Columbia Sector of Prairies, Peace. River block. "Interior" is usually and properly capitalized, but becomes in minimums in various books and magazines. The non-coastal areas of Province are considered "inside", although the sparsely populated regions of their northern half are generally referred to as "the North". The city of hoping, at the East Extreme of Fraser Valley and the Canyon Soup of Fraser, is often considered the "portal for the interior" and has an entry bow for this effect, although in terms for Toys The interior Do not start until some place between "the coast" and "the interior" along the road 99 corridor is nominally between Whistler and Pemberton, as Pemberton is often described as in the interior, but from the inner perspective is often seen as part of the coast because of Its mooded climate and closed loops to the lower limit. There are many sub-regions within the interior, some regions by lawsuit, and although there are no precise definitions, it is often broken informally as the northern interior, the central interior, the interior of the South From the Northeast and the interior of the Southeast, and these names generally appear in non-governmental organizations and company names, as well as in administrative districts of government and ministerial regions and meteorological relatives. Regional districts Below are the 14 regional districts of the British column defined as being in the inner region: Regional Districts Population (2016) [3] [4] Rea (km2) Density (/ km2) Chief OfficeLocalizaçà £ the Bulkley-Nechako 37 896 73 361 00:52 Burns Lake Cariboo 61,988 80,609 0.77 Williams Lake Central Kootenay 59 517 22 095 2.7 194 882 2,905 Nelson Central Okanagan Kelowna Columbia-shuswap 67.1 51 366 28 929 1.8 Salma £ braço the East Kootenay 60,439 27,543 2.2 Cranbrook Fraser-Fort George 94 506 50 676 1.9 Príncipe George Kootenay Frontário 31,447 8,082 3.9 track North Okanagan 84,354 7,503 11.2 85,111 5,393 Coldstream Northern Rockies Fort Nelson 12:06 Okanagan-Similkamen 83.022 10 414 8.0 62 942 117 391 Peace River Penticton 12:54 Dawson Creek Stikine regia £ 740 118.663 0.01 (n / a) * Thompson-Nicola 132.663 44.448 3.0 Kamloops Main Subregion and Northern Nomenclature Interior Mountain Range The northern interior begins somewhere between the Cariboo and the city of the Prince George, who stands south of the big curve in the upper Fraser. The city of questions can be considered as part of the northern interior, or inner north-central. The northern interior includes Robson Valley (the upper range of the Fraser Basin) to the southeast of the Prince George as well as the District of Ominaca and the Bulkley and Nechako Basins. The upper Sky communities are sometimes referred to as being in the north, although in cultural terms and usual use that are part of the North Coast, which is associated in regional terms generally with the South and Central Coast and the Island of Vancouver. The north of the interior of the ominaca regions and skena-bulkley is usually only referred to as "the north," although it is also considered part of the northern interior. "The North" can also refer to the prince George, one of the largest cities in the interior and also Main city in the northern interior (although this term can also apply to Prince George), which leads to "Northern Queen City". Northern interior Plance The plan of the northern interior is a continuation of the provincial park of Monkman and Tumbler Ridge in the south, for Hudson's hope and Lake Williston, West, Fort St. John and Charlie Lake in the north. The term is used to signify the entire interior of the northeast last by the rocks, including Fort St. John and Charlie Lake in the north. The term is used to signify the entire interior of the northeast last by the rocks, including Fort Nelson and Other parts of Liard drainage, and before W.A.C. Bennett Dam included the Top Peace River through his throat between Finlay Forks and Hudson's Hope. Central Mountain Range The central interior is about, approximately, Chilcotin, Cariboo, River-Lilloet bridge, Canyon Fraser, Nicola, Thompson and Kamloops-Shuswap countries. Some uses may refer to Okanagan's cities south of Shuswap as being in the central interior, but these are generally referred to as being in the south or in the southern central interior. Nicola, Fraser Canyon, Thompson and Bridge River -Liloy Country Sometimes are also referred to as being in the South, with the River-Liloet River is sometimes referred to, along with Chilcotin, as the interior of the West-central, and Lilloom Paães is historically regarded as part of the Cariboo, though distinguished by themselves alone. The country of the Bridge also was referred to as West Cariboo, but it is not considered in the Cariboo for its residents. Many urban residents are under the impression that Bridge River country is part of chilcotin because of the name "Chilcotin becau southern interior falls approximately south of the Thompson River and Shuswap (corresponding mainly to the rest of the forego treaty of the old district of Columbia, original, from Hudson's bay. When used directly, It usually means Okanagan and adjoining areas, particularly Similkamen, South Monashees and Boundary. Due to a new federal political equitation of the same name (see interior of the South), the use has now apply to cities From the West Kootenay, along with the rest of the Kootenay with the rest of the Rootenay with the rest of the Rootenay with the rest of the Rootenay with the rest of the generally are not included in the men's central interior or in the South. History geographic regions The interior comprises more than 70% of the province and with more than 80% of its continent. om measure that consists of a IE de valleys and interior comprises more than 70% of the province and with more than 80% of its continent. fund of several settlements of settl research blocks instead of descriptive of the real geocultural landscape that evolved at the top of them. In most cases, the "Paas" and "district" are often discarded, and these regions are referred to as simply kotenay, chilcotin and cariboo, they can often be referred to as simply kotenay. chilcotin and cariboo .. some are only referred to without the "paas" or "district" attached, such as "tulameen" and "The Similkamamen", and in other cases, this is more common than the longer form, although both occur ("Stikine" is more common than "Stikine" is more common than "Stikine" is more common than the longer form, although both occur ("Stikine" is more common than "Stikine" is more and these usually appear in government administrative districts and cultural-political divisions of the first nations as the aborganic history were also shaped by the characteristics of insulation and defining landscape as collonte culture. The main historical sub-regions, with its sub-lei itself, an independence of very common overlays between some areas, and in its most common forms, are the following: Cariboo Paãs" as these areas share climate and regional connections. Cariboo North Caribo North Lake Spruce). Fraser Canyon "aka" The Canyon "aka" The Canyon Fraser and Cariboo, though distinct inside both, and also historically, including areas not. Bridge River Paas - An important suburcles of Lilloom Paas, often combined as Rio-Lillooket bridge and once nicknamed West Cariboo. Now, sometimes confusing with chilcotine because of the south Thompson The area around Kamloops, Chase for Ashcroft. Bonaparte (usually considered part of the Cariboo, but shares more geographically links to Thompson, and comprising much of the Thompson, and the Thompson much of the Thompson, and the Thompson much of the Thomps area around Kelowna. North Okanagan (also Northern Okanagan) Okanagan-Thompson Plateau Shuswap Pans - The area around Shuswap River Drenage to East Okanagan, which is generally considered part of Okanagan North or Moneashees. Contour Paães - often included with the West Kootenay, or with Okanagan. Monashes - sometimes considered a separate area, often included in others; Southern monsheres are connected or are part of the limit country. Similkameen Paãs - Frequently included in southern Okanagan. The Kootenay Elk Valley The Columbia - The Valley of the South Columbia South of Gold is often included in East Kootenay, while the region of Arrow lakes, south of Revelstoke, is usually considered part the West Kootenay, while the region of Arrow lakes, south of Revelstoke, is usually considered part the West Kootenay, while the region of Arrow lakes, south of Revelstoke, is usually considered part the West Kootenay.
